

Important Safety Information

Do not use the iBand+ headband and the iBand+ pillow speakers with the USB cable or any other cable plugged in. To avoid the risk of strangulation, iBand+ should always be worn without any cables attached. Do not use the device while charging.

iBand+ is not a medical device. For any medical or health-related professional advice, you should consult a doctor or a professional healthcare provider. If you have any physical, medical or neurological condition, please consult your doctor before using iBand+.

Some people may experience seizure when exposed to flashing lights or other light patterns created by the iBand+ headband or such similar devices. Even people who have no history of seizures or epilepsy may have an undiagnosed condition that can cause seizures or elevated neurological activity. So, if you experience any nausea, involuntary movements, tingling, numbness, vision issues then you should consult your doctor before using iBand+ or similar devices.

Do not use the device if you have any sores or skin irritation around the area where the electrodes make contact with skin. If you get any skin irritation after using the device, then stop immediately and consult a doctor before continuing.

iBand+ sleep tracking data may be affected due to the electromagnetic interference (EMI) from the peripheral electronic devices like old adapters/chargers, fluorescent lamps, electric blankets etc. when they are ON.

Wipe the electrodes after each sleep with the provided microfiber cloth. Do not use liquids, aerosol cleaners or any chemicals to clean the electrodes. The electrodes can be cleaned with a very small amount of rubbing alcohol if you notice a residue build up.

Do not use your device near heat sources, food, excessive dirt, dust, oil, chemicals, or in strong direct sunlight. The device is not waterproof. Do not expose the device to rain or other liquids, except for the loose strap which is washable.

Do not use if you are pregnant.

Contains small parts. Keep out of reach of children. Potential choking hazard.

Store out of reach of pets.

Do not modify or attempt to repair the device. Disassembling the device may be a risk to you. Unauthorized repairs or modifications could result in permanent damage to the device and may affect your warranty coverage and regulatory authorizations.

Do not attempt to replace the battery yourself. The lithium-ion battery in iBand+ should be replaced by an authorized service provider. Improper replacement or repair could damage the battery, cause overheating, or result in injury. The battery must be recycled or disposed of separately from household waste. Do not incinerate the battery.

The product is designed to be used by the users over the age of 18 years.

Your use of the product is governed by our Terms of Use as detailed on www.ibandplus.com. Use of the product is deemed as consent to our Terms of Use.

Regulatory Information

FCC Compliance Statement

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy, and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

EU Compliance Statement

The product is in conformity with the essential requirements of Article 3.1 (a) the protection of health, property and safety, 3.1 (b) an adequate level of electromagnetic compatibility and 3.2 effective use of the spectrum of 2014/53/EU.

Correct Disposal of This Product

(Waste Electrical & Electronic Equipment)

This marking shown on the product, packaging, or its literature, indicates that it should not be disposed with other household wastes at the end of its working life.

To prevent possible harm to the environment or human health from uncontrolled waste disposal, please separate this from other types of wastes and recycle it responsibly to promote the sustainable reuse of material resources.

Household user should contact their local government office for details of where and how they can take this item for environmentally safe recycling.

Business users should contact their supplier and check the terms and conditions of the purchase contract.

This product should not be mixed with other commercial wastes for disposal.
